

## Design and Construction Updates November & December, 2025

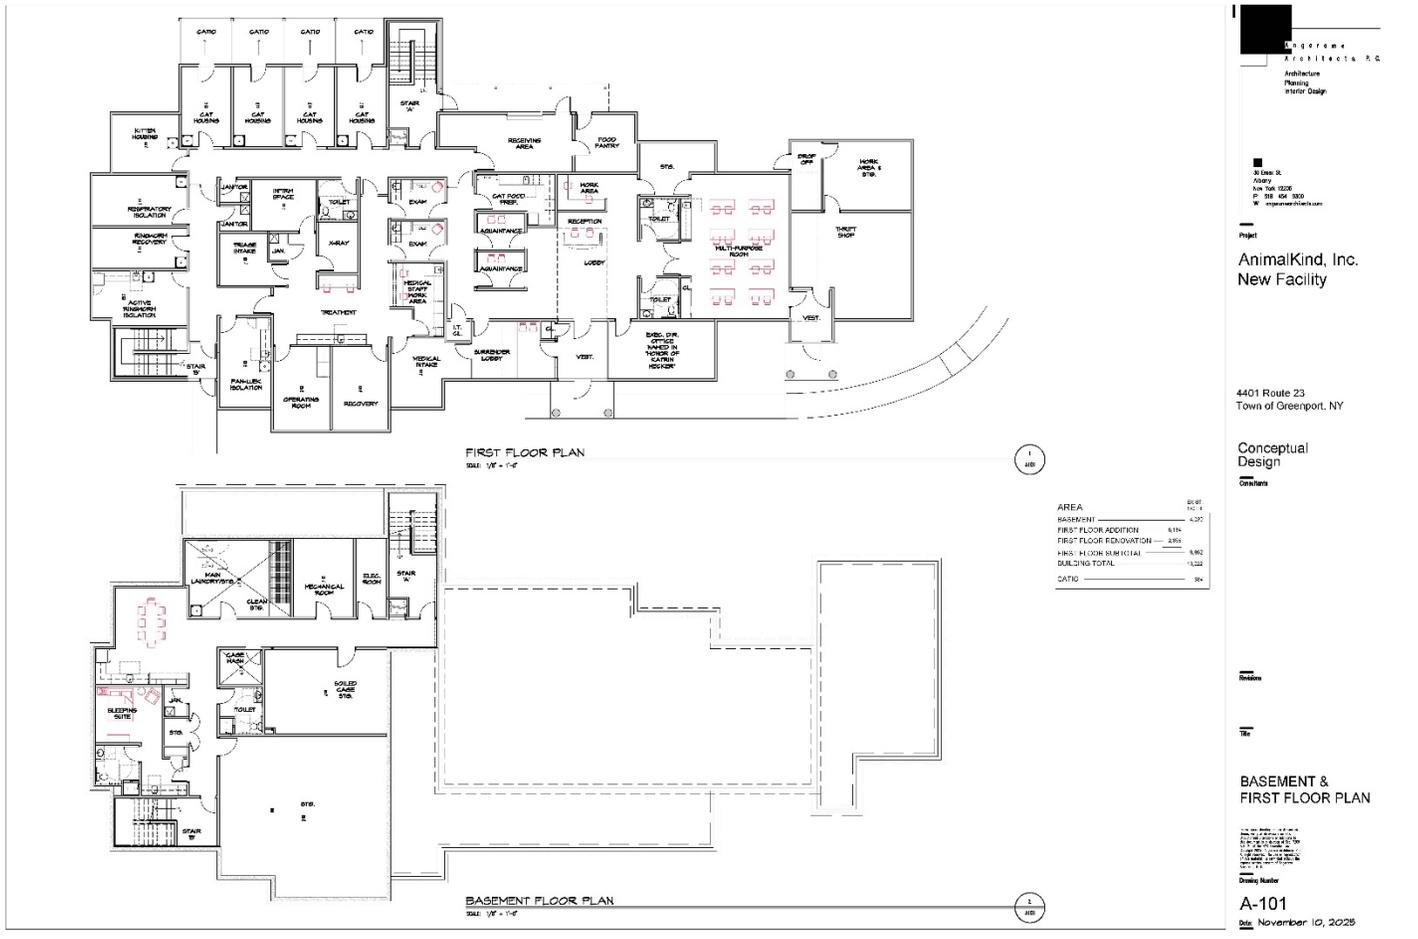

### November, 2025:

We have our first round of drawings to include a rendering and a proposed floor plan. We are also very excited to announce we have sent out an RFP for Construction Management Services to three very well-respected regional contractors. By the end of December, our Project Team will be assembled.

### Existing Property and Building

# Initial Design

## December, 2025:

We received 3 very comprehensive responses to our Construction Services RFP and had great discussions with all 3 candidates. We are so appreciative of everyone’s efforts and want to thank MLB and Wainschaf Associates for their participation. AnimalKind is happy to announce the selection of [LeChase Construction](#) as our Construction Management Partner. We could not be more excited to work with both Angerame Architects and LeChase Construction.
